## CCS 4.2

Docunent no : KT0103EN

### Features :

- English, Turkish, Russian German Display Language Support
- Compatible Temperature Sensors: NTC (R25=10K), KTY (R25=1K ; R25=10K) and Pt1000 ( PT100 only for CCS 4.2)
- Compatible Pressure Sensors : 4-20 mA 0-40 BAR
- All Timers, Value Ranges and I/O's can be Digitally Configured
- Continuous and Automatic Running Mode Options
- Customizable Start-up Screen with Company Information
- Three Level Password Protection, (User, Service, Factory)
- Remote Load Valve Control and Start/Stop (via Digital Input or MODBUS)
- Autostart function after power failure
- 6 Adjustable Maintenance and Parts Service Timers,
- MOD BUS RTU Support
- Firmware Update
- Remote Monitoring Function with CCS SCACA software,
- Configurable parameters using the font panel
